

ONE SHEET — On Lungs Alone

xobehtedistuO · A song sung with a personally trained voice

About

xobehtedistuO is an AI enthusiast, futurist, and creator of courage-fueled worlds — the name is the phrase “outside the box” read backwards. “On Lungs Alone” is the rare case where the AI voice is genuinely the artist’s own: a personally trained voice on Suno Studio 2.0 carrying the song close to the mic — midwest emo, fingerpicked steel-string, sparse and aching.
