About the single

Track: “On Lungs Alone”

Artist: xobehtedistuO

Vocals: personally trained voice — Suno Studio 2.0

Genre: midwest emo / acoustic emo / deep baritone

Streaming now on SoundCloud · Spotify drop via DistroKid, 8/23/2026

The voice

“On Lungs Alone” is the rare case where the AI voice is genuinely the artist's own: a personally trained voice on Suno Studio 2.0 carrying the song close to the mic — fingerpicked steel-string, sparse intro, dense chorus, aching nostalgia. It is not a rented persona; the performance is recognizable as xobehtedistuO.
