The image features a black background with several abstract, translucent, geometric shapes. These shapes, which appear to be fragments of a larger structure, are scattered around the central text. One large, irregular shape is on the left, and another is on the right. The word "INTERACTIVE" is centered in the middle of the image.

AUGMENTED REALITY

The background is a dark, almost black, surface with a complex, organic texture. It appears to be a close-up of a material like shattered glass or a microscopic view of a mineral, with numerous sharp, thin, light-colored lines and fragments scattered across the frame. The overall effect is one of depth and complexity. Centered horizontally and slightly below the vertical midpoint is the text 'HOW IT WORKS' in a bright green, neon-like font. The letters are outlined with a double-line effect, giving them a three-dimensional, glowing appearance. The text is in all caps and a sans-serif style, with wide letter spacing.

HOW IT WORKS

The background is a dark, almost black, textured surface. It appears to be a close-up of a rough material, possibly stone or concrete, with some lighter, greyish-green veins and small white specks scattered throughout. A prominent, jagged, light-colored crack or fissure runs diagonally from the upper left towards the center. Another similar crack is visible on the right side. The overall lighting is very low, creating a mysterious and somewhat ominous atmosphere.

The background is a dark, almost black, textured surface. It appears to be a close-up of a rough, possibly metallic or stone, surface with some lighter, greyish-green highlights and scratches. The overall effect is gritty and industrial. Overlaid on this is the text "STEP 4. AR ZONES" in a bright green, neon-like, outlined font. The text is centered and has a slight glow effect.
