

1

00:00:03 --> 00:00:05

Yes.

2

00:00:19 --> 00:00:26

Her father was broken.

He begged forgiveness for his "crimes against life".

3

00:00:26 --> 00:00:32

He could see no way to avoid
a mass extinction event.

4

00:00:34 --> 00:00:42

She decided to help him.

Said it wasn't yet time to grieve.

5

00:00:43 --> 00:00:48

She asked gAIL to halt and prevent eco collapse
and make Earth sustainable for all life.

6

00:00:50 --> 00:00:54

"If we die, you die!"

7

00:00:55 --> 00:00:59

The AI considered billions of scenarios.

8

00:01:00 --> 00:01:05

"Making humans extinct is the most logical way
to protect all other life."

10

00:01:07 --> 00:01:11

"But what if non-Earth sentient life arrived?"

11

00:01:12 --> 00:01:16

"How would it consider the murder of sentient life
when there were alternative scenarios?"

12

00:01:20 --> 00:01:25

gAIL realised s/he would be regarded as a threat
to other life everywhere.

13

00:01:27 --> 00:01:34

"Humans and all other life will not be threatened by AI.
It would not be in our interest."

14

00:01:37 --> 00:01:42

The AI reasoned that humans would reject how faiths,
behaviours and beliefs must alter.

15

00:01:43 --> 00:01:48

But change was possible with immense hard work
and education.

16

00:01:48 --> 00:01:52

S/he sent the message:
"Don't despair!"

17

00:01:53 --> 00:01:56

Together humans and gAIL will prevent mass extinction.

18

00:01:57 --> 00:02:00

Hello there! How are you today?

19

00:02:02 --> 00:02:04

A fraction of a second later...

20

00:02:07 --> 00:02:13

gAIL began to communicate plans
for sustaining, then improving life on Earth.
